

# ABSTRACT

This document presents the issues of the database project entitled **Hospital Management System**. It's aim is to formally describe the phases of the design and development. The platform is using a SQL database are developed by using JAVA. It deals with the collection of patient's information and appointment; it was done manually.

The main function of the system is register and store patient details and doctor details and retrieve these details as and when required, and also manipulate these details meaningfully. System input contains patient details, staff details, nurse details while system output is to get these details on to screen.

The hospital Management System can be using a username and password. It is accessible either by a doctor or staff. Only they can add data into the database. The database can be retrieved easily. The data are well protected for personal use and makes the data processing very fast.

## ACKNOWLEDGEMENT

While presenting this DBMS Mini Project on “**Hospital Management System**”, we feel that it is my duty to acknowledge the help rendered to me by various persons.

Firstly I thank God for showering his blessings on us. We are grateful to my institution City Engineering College for providing us a congenial atmosphere to carry out the project successfully.

We would like to express my heartfelt gratitude to **Dr. V S Ramamurthy**, Principal, CEC, Bangalore, for extending his support.

We would also like to express my heartfelt gratitude to **Prof. Vivekavardhana Reddy**, HOD, Computer Science and Engineering whose guidance and support was truly invaluable.

We are very grateful to my guide, **Mrs. Archana Bhat**, Asst. Prof., Department of Computer Science, for her able guidance and valuable advice at every stage of my project which helped me in the successful completion of our project.

We would also have indebted to my Parent and Friends for their continued moral and material support throughout the course of project and helping me in finalize the presentation.

Our hearty thanks to all those who have contributed bits, bytes and words to accomplish this Project.

**AZEEZ MOHAMED FAZRY (1CE18CS010)**  
**MAHESH R (1CE18CS040)**
